COVID-19 CASE COUNT 10/15 – ORANGE COUNTY

ORANGE COUNTY COVID-19 DASHBOARD

Cumulative Cases

56,436

(Includes Deaths, PCR Positive only)

Cumulative Antigen Positive Cases***

1,747

Daily PCR+ Cases Received

153

Cumulative Deaths

1,391

Daily (New) Deaths Received

31

Cumulative PCR Tests

970,212

Daily PCR Tests Received

6,623

Recovered Cases

50,459

(Estimated)

Updated: 10/15/2020

CURRENT TIER: **SUBSTANTIAL (TIER 2)**

Daily COVID-19 Positive Cases per 100,000

4.6

(7-Day Average with 7-Day Lag)

Testing Positivity Percent

3.5%

(7-Day Average with 7-Day Lag)

WIDESPREAD Tier 1	>7 new daily cases (per 100k)	>8%
SUBSTANTIAL Tier 2	4 - 7 new daily cases (per 100k)	5 - 8%
MODERATE Tier 3	1 - 3.9 new daily cases (per 100k)	2 - 4.9%
MINIMAL Tier 4	<1 new daily cases (per 100k)	<2%

*Counties are assigned a tier based on two metrics: test positivity and case rate. The case rate is adjusted based on testing volume per 100,000 population as described below. Due to variability in data, this adjustment does not apply to small counties (defined as those with a population less than ~100,000 residents)

- For counties with testing volume above the state median, the factor is less than 1, decreasing in a linear manner from 1.0 to 0.6 as testing volume increases from the state median to 2x the state median. The factor remains at 0.6 if the testing volume is greater than 2x the state median.
- For counties with testing volume below the state median, the factor is greater than 1, increasing in a linear manner from 1.0 to 1.4 as testing volume decreases from the state median to zero. However, this adjustment for low testing volume will not be applied to counties with a test positivity < 3.5%.

**Case rate will be determined using cases confirmed by PCR

***HCA is tracking and conducting contact tracing on antigen+ cases.

Figures shown in this tab are reported by California Department of Public Health and will be updated every Tuesday.

CDPH Resources:

[CDPH Blueprint Information](#)
[Blueprint for a Safer Economy](#)
[Blueprint Activities and Business Tiers](#)

Moving through the Tiers

Rules of the framework:

- CDPH will assess indicators weekly. The first weekly assessment will be released on September 8, 2020.
- A county will remain in a tier for a minimum of three weeks before being able to advance to a later tier.
- A county can only move forward one tier at a time, even if metrics qualify for a more advanced tier.
- If a county's case rate and test positivity measure fall into two different tiers, the county will be assigned to the more restrictive tier.
- City local health jurisdiction (LHJ) data will be included in overall metrics, and city LHJs will be assigned the same tier as the surrounding county.

Initial step applied on August 28, 2020:

- Each county is assigned to a tier based on an adjusted case rate and test positivity from the prior two reporting periods. If a county's case rate and test positivity measure fall into two different tiers, the county will be assigned the more restrictive tier.
- This tier status will be effective on Monday, August 31, 2020.
- If a county is initially assigned to Purple Tier 1 and has met the criteria for a less restrictive tier the prior week, the county only needs to meet the criteria for a less restrictive tier for one more week to move to the Red Tier 2. (For the September 8, 2020 assignment, a county does not need to remain in the Purple Tier 1 for three weeks. For all subsequent assessments, a county must remain in a tier for three weeks and meet the criteria to advance as described below.)

To advance:

- A county must have been in the current tier for a minimum of three weeks, except as described in the "Initial step applied on August 28, 2020" section above.
- A county must meet criteria for the next tier for both measures for the prior two consecutive weeks in order to progress to the next tier.
- In addition, the state will establish health equity measures on activities such as data collection, testing access, contact tracing, supportive isolation, and outreach that demonstrate a county's ability to address the most impacted communities within a county. Additional measures addressing health outcomes such as case rates, hospitalizations and deaths, will also be developed and tracked for improvement.

New State Framework showing which sectors are open, and with what restrictions, by County (Great tool)

<https://covid19.ca.gov/safer-economy/>

County risk level	New cases	Positive tests
WIDESPREAD Many non-essential indoor business operations are closed	More than 7 daily new cases (per 100k)	More than 8% Positive tests
SUBSTANTIAL Some non-essential indoor business operations are closed	4 - 7 daily new cases (per 100k)	5 - 8% Positive tests
MODERATE Some indoor business operations are open with modifications	1 - 3.9 daily new cases (per 100k)	2 - 4.9% Positive tests
MINIMAL Most indoor business operations are open with modifications	Less than 1 daily new cases (per 100k)	Less than 2% Positive tests

HALLOWEEN AND DIA DE LOS MUERTOS STATE GUIDANCE

Slow the Spread of COVID-19

- Some of the traditional holiday activities promote congregating and mixing of households, which increase the risk of transmitting COVID-19. For this reason, CDPH recommends that you choose a safer alternative way to celebrate Halloween and Día de los Muertos, and strongly discourages trick-or-treating.

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Guidance-for-Safer-Halloween-and-Dia-de-los-Muertos-Celebrations-during-COVID-19.aspx#:~:text=Some%20of%20the%20traditional%20holiday,discourages%20trick%2Dor%2Dtreating.>

UPDATED CDC GUIDANCE TO SLOW THE SPREAD

- ❖ COVID-19 spreads very easily from person to person
- ❖ COVID-19 most commonly spreads during close contact
- ❖ COVID-19 can sometimes be spread by airborne transmission
- ❖ COVID-19 spreads less commonly through contact with contaminated surfaces

**DON'T USE A FACE SHIELD
IN PLACE OF A MASK.**

#COVID19

DO NOT choose masks that

Are made of fabric that makes it hard to breathe, for example, vinyl

Have exhalation valves or vents, which allow virus particles to escape

Are intended for healthcare workers, including N95 respirators or surgical masks

DO choose masks that

Have two or more layers of washable, breathable fabric

Completely cover your nose and mouth

Fit snugly against the sides of your face and don't have gaps

SUMMARY OF COSTA MESA ACTIONS

- ❖ Developed ~\$700K Rental Assistance Program
- ❖ Supported the County of Orange in deploying the OC Fairgrounds Testing Supersite
